We received fantastic feedback about Dr. Wilson's presentations in 2009. Due to popular demand Nutrisearch is very pleased to announce Dr. Wilson's return to New Zealand.

If you attended either the 2008 or 2009 Seminars, you will find that the 2010 Seminar will deepen your knowledge and understanding of **stress, digestive healing, immunity** and its **interplay** with the **endocrine system**.

If you thought Dr Wilson's indepth Knowledge on Adrenal Fatigue and the HPA axis was incredible, wait until you hear him share with us his research into **immunity**, and **healing the Digestive system**.

Dr. Wilson's seminars are masterful and will change the way you view and treat many chronic complex conditions in your practice. Join us for an information packed seminar and gain simple clinical tools you can use effectively in your practice to optimise your patient's outcomes.
